ates for the shorter distance were so different. In this case Mr. Kindel almost that if the grades and difference in density of population made no difference in the long hauls, it should cake no difference in the short hauls. Other charts showed that it was possible to slip goods from Chicago to San Francisco and back again to Salt Lake City at a slightly less rate than that charged by direct route from Chicago to Sait Lake City. One means of bringing the railroads to terms was to erect a warehouse at Sacramento, ship goods from Atlantic coast or other Eastern points to the warehouse, and reship to Sait Lake City, thus secaring the benefit of the long han sver the railroad lines and gaining a slightly lower freight rate. les for the shorter distance were

Rate on Steel Rails.

It was shown that the Harriman lines previously carried steel rails from Chicago to San Francisco for \$1 per hundred, whereas it cost \$1.60 to ship hundred, whereas it cost \$1.00 to sup-the same goods from Chicago to the same point via Pueblo. In the case of the Colorado Fuel and Iron company, the unfairness was adjusted by means of a differential which made a reduc-tion of 75 per cent and gave them a

fairly good rate.

Mr. Kindel showed that the New-house buildings had cost \$19,250 in ex-sess of what they should, on account of cess of what they should, on account of the high freight rates. In the case of the new Commercial club building, the structural steel cost \$3150 more than it would have cost if it had been built in San Francisco, nearly 10000 miles further away from Pittsburg, where the steel was purchased. He stated that for this sort of discrimination one of the cures was publicity, and that he had tried to get everything possible in the newspapers, and when in some cases he had failed, he had printed circulars for distribution. He told of letters written to President Roosevelt, calling attention to the evils in rates, and said these letters had not been answered. He also said that he had written to President Colorado and Utah which had been discriminated against, and that they were

Complexions Are Cleared and Pimples Disappear Overnight Without Trouble

Complexions Are Cleared and Finance Disappear Overnight Without Trouble.

The dispensers of poslam, a new skin discovery, ask that notice be given that no one is urged to purchase it without first obtaining an experimental package. Those who have tried it will find that the fifty-cent box, on sale at the F. J. Hill Drug Co. store, is sufficient to cure the worst cases of eczema, where the surface affected is not too large. The itching ceases on first application. It will also cure acne, tetter, blotches, sealy sealp, hives, barber's and every other form of itch, including itching fect. Being flesh-colored and containing no grease, the presence of poslam on exposed surfaces, such as the face and hands, is not perceptible. Water and soap cannot be used in connection with it, as these irritate and prolong skin troubles, sometimes even causing them. As to the experimental package of poslam, it can be had free of charge by mail of the Emergency Laboratories, 32 West Twenty fifth Street, New York, It alone is sufficient to clear the complexion overnight, and to rid the face of pimples in twenty-four hours.

LETTERS TELL OF DEEP DEPRAVITY

BIG SUGAR COMPANY

NEW YORK. Nov. 16.—The United States government has brought six suits against the American Sugar Refining company to recover forfeitures and customs receipts amounting to \$3,624,121 on sugar delivered at the Havemeyer and Elder refineries in Brooklyn during the past six years. The government alleges fraud in weighing shipments.

The first of the suits was for \$1,500,600, and was filed with the courts on October 16, and the others were filed October 28. The filing of the action was kept from public knowledge until after the election, but was made known here today. The American Sugar Refining company has filed a denial of the charges.

Two of the suits were brought for the forfeiture of all importations of sugar delivered at the Havemeyer and Elder refinery for a period of but two years, owing to the statute of limitations, although the first action alleges fraudulent weighing for six years.

The complaints alleging violations of section 9 of the customs act of 1850 charge that the checker at the Brooklyn

The complaints alleging violations of section 9 of the customs act of 1890 charge that the checker at the Brooklyn refinery so manipulated the platform scales so as to conceal the true weights. The second and third suits involve amounts exceeding \$500,000, the others varying between \$2\$0,000 and \$300,000.

Many matters of interest to business and shippers were talked over and consideration given to tailed over and consideration given to important matters of the transportation problem. Those present, aside from the guests of honor, were: Charles A. Quigley, president, W. S. McCarthy, secretary; C. N. Strevell, J. R. Valentine, Samuel Weitz and J. G. McDonald.

Will Hold Conference Tuesday.

BERLIN, Nov. 16 .- Emperor William is due to arrive at Potsdam tomorrow. Mr. and Mrs. Orvil Hatch of 423 North Fifth West street, had a narrow escape from being instantly killed Monday foremon at 11-45 o'clock, when he was struck by an electric car. The little fellow was knocked down and rolled along the track for some distance. Other than two scalp wounds, the child was not injured. The accident occurred in front of the family home.

The child had gone agross the street to play, and the mother, seeing him there, called to him to come home. In an attempt to cross the tracks before a rapidly approaching electric car in charge of Motorman A. T. Murphy, the lad was struck by the front fender. The car was brought to a quick stop and the child picked up and carried home, where the railroad physician attended his injuries. at 8 o'clock in the morning. He will have an audience with Chancellor you Buelow in the course of the day, but the hour of this meeting has not yet been fixed. Whether the meeting will be at Potsdam or in Berlin will be decided by his majesty after his ar-It is pointed out today, in well-in-

It is pointed out today, in well-in-formed quarters, that some of the news-papers of Germany have adopted a prematurely optimistic tone regarding the outcome of this meeting.

Much depends on the personal mood of his majesty, and in this connection the apt remark has been made:

"We know how such an audience will beein but we cannot foresee its conbegin, but we cannot foresec its con-

WIFE TELLS STORY ON WITNESS STAND

in Behalf of Her Husband.

Treatment Until Day of Killing.

Milka Macrovich, wife of Steve Macrovich, who is on trial before Judge Armstrong for the killing of Mike Popich, at Bingham, July 11 last, told the story on the stand Monday that the defense relies on to set Macrovich free.

After substantiating the defense's story of the shooting, Mrs. Macrovich told how, two weeks before, Popich had come to the Macrovich cabin and attempted to criminally assault her, at the point of a revolver. She screamed, she teatified, and Steve Blokovich came to her rescue Before Blokovich arrived, however, she said, Popich had threatened to shoot her if she did not submit. He falled to accomplish hits purpose, Mrs. Macrovich said between sobs. She did not tell her husband until the day of the killing, she added.

husband until the day of the killing, she added.

Macrovich then took the stand in his own behaif. He is a native of Gospic, Croalia. Austria, coming to Murray three and one-half years ago. He met Poptch at Bingham directly afterward, he said. His wire followed him two years and two months ago, he said, and she kept boarders at Murray while he worked in the smelter. When they moved to Bingham about a year ago the same plan was followed.

lowed.

Macrovich said he had trouble with Popich the first of the year. Popich and four others were discharged from the Highland Boy and laid their discharge to him. Several times Popich had threatened to kill him, and he named seven others who had heard these threats. He always expected to be killed by Popich, coming off shift at night. Popich assaulted him two or three times, once with brass knucks, and he appealed to Forbes for protection but got none, he testified. Story of Tragedy.

Coming down to the day of the murder, Macrovich said he got up at 2:30 a. m. to get hot water for his boarders coming off shift to wash with. He worked all day at the mine, coming off shift at 4:30 p. m. but before he went to work his wife told him of Popich's attempted criminal assault upon her two weeks before, which made him fil, he said.

When he got home from work, Mellch was there, he said, and he saw Forbes and Popich down the road. Directly Forbes arrived and he paid Forbes & Mellch he beer bill, \$190. Both Forbes and Melich promised to see that Popich left him alone, he said.

While helping his wife wash dishes

promised to see that Popich left him alone, he said.

While helping his wife wash dishes about 5:20, he saw Popich coming up the road. He want out and told Popich to leave him and his wife alone. Popich stuck his tongue out at him and drew a gun. He then derted back into the house and got his revolver, recently beaght. When he got back, Popich was talking to his wife.

As he came out, Popich said: "You kill me, or 1'll kill you." Popich then pointed his gun at him, and be shot. Although he empfled his revolver, he didn't know how many times he shot at Popich, he testified. He then went into the house, loaded his revolver and gave himself up to the mine superintendent.

On the way to jall a crowd came up and said: "Kill him!" The crowd took the guis away from Ferbes, and Stellch hit Maccovich over the head. He and the rest of the prisoners ran, not to get away, but to protect the maleys, he declared.

WOMAN'S

The back is the mainspring of woman's organism. It quickly calls attention to trouble by aching. It tells, with other symptoms, such as nervousness, headache, pains in the loins, weight in the lower part of the body, that a woman's feminine organism needs immediate attention.

In such cases the one sure remedy which speedily removes the cause, and restores the feminine organism to a healthy, normal condition is

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Will Young, of 6 Columbia Ave., Rockland, Me., says: "I was troubled for a long time with dreadful backaches and a pain in my side, and was miserable in every way.

I doctored until I was discouraged and thought I would never get well. I read what Lydia E. Pinkham's Vegetable Compound had done for others and decided to try it; after taking three bottles I can truly say that I never felt so well in my life." Mrs. Augustus Lyon, of East Earl,

Pa, writes to Mrs. Pinkham: "I had very severe backaches, and pressing-down pains. I could not sleep, and had no appetite. Lydia E. Pink-ham's Vegetable Compound cured me and made me feel like a new woman."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pink-ham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bear-ing-down feeling, flatulency, indigestion, dizziness, or nervous prostration

COUNCIL MEETING IS RED-HOT ONE

Mrs. Steve Macrovich Testifies Outlet Sewer Pipe Resolution Is the Cause of All the Trouble.

of Public Works for Action.

There were several oratorical passagesat-arms and verbal tilts at the meeting of the city council Monday night, and everal times the social amenities were

disturbed to the breaking point.
The feeling of bitterness and acrimony cached its height in the debate on Mr. Fernstrom's resolution recommending that the board of public works be instructed to notify the Campbell Building company that unless the defects in the outlet pipe for the west side sewage sys-

outlet pipe for the west side sewage system be remedied within two days, the city council would take over the contract, finish the work and charge it to the building company's contract.

The resolution was adonted by a vote of 8 to 6. Cowburn. Fernstrom, Hodgson, Holley, Hall, Murdock, Raybould and Wood voting in favor and Ferry Martin, O'Donnell, Reedall, Stewart and President Davis against it.

Almost white with passion, Mr. Raybould, who lives in the district affected by the delay in the completion of the pipe, looked over at Messrs, Martin, Reedall and Stewart, and exclaimed. "You're against us, are you? Well, we'll get even with you!"

Then Mr. Ferry arose to the retort courteous in an even voice, unmarked by any display of temper, he said.

Mr. Ferry Talks.

Mr. Ferry Talks.

Mr. President, I consider it petty and undignified for a counciliman from another ward to so far lose his temper as to declare that he will get even with us because we happen to have divergent views; because we don't see as he does. I believe it is due to the board of public works, which has had this matter under charge and has repeatedly visited and inspected the work, to give it the privilege of reporting to the council the reasons for any dereliction in the work. I would advocate that the board be asked to give a full statement of the progress and conditions of the work to the council at next Monday night's meeting. I therefore wish to change my vote to yes and give notice of reconsideration, for that purpose."

When the resolution was presented and read, Mr. Ferry and Mr. Martin spoke against it, urging its defeat on the ground that it will take some time to connect up the laterals with the intercepting sewer and complete the pumping station so that it will be ready to be put into commission, and Mr. Reedall said that Mayor Bransford had visited the outlet pipe with several of the councilmen last week and promised to take the matter up with the board of public works. "Inasmuch as Mayor Bransford has promised to do this, I think it would be a slap at him to udopt this resolution," said Mr. Reedall. Mr. Martin was especially insistent that the council wait a few days longer before taking any action.

Fernstrom Is Angry.

"The whole southwestern part of the

Fernstrom Is Angry. "The whole southwestern part of the city has been waiting a whole year." retorted Mr. Fernstrom, with considerable heat. "The city engineer made this same recommendation to the board of public works some time ago, but it was ignored. It is not right for an east side councilman to get up and try to filibuster it away when a west side councilman wants something."

Mr. Hall charged incompetence against

something."

Mr. Hall charged incompetence against the contractor in the laying of the pipe, and Mr. Hodgson charged the board of public works with apathy and indifference. He said: "On the west side we have had to open our sewers and turn our sewerage into the streets and build cesspools. Already the city is threatened with damage suits on account of the overflow sewerage. My God, we have waited a year! How much longer do you want us to wait?"

Mr. Campbell, the contractor, who was present, was called on and said that the history of wooden stave pipes was that there were leaks for two months after they were built. Mr. Hall, he said, was mistaken about the pipe being laid in water. The pipe was built according to specifications, and it would be an injustice to ask him to get it into working order in two days. "You must have patience with it," he declared.

Under Water for Weeks. Under Water for Weeks.

Under Water for Weeks.

Mr. Reedall brought the admission from Mr. Campbell that the pipe was under water for weeks after it was laid, but Mr. Campbell insisted that it is not a question of stopping the leaks before the pipe is put into commission; the sediment from the sewerage will completely do that in two weeks after it is put into use, he asserted.

City Engineer Kelsey, when asked for his opinion, said he visited the pipe Sunday and that there were as many leaks then as there were two or three weeks ago. This brought a flat denial from Mr. Campbell. One of the leaks, Mr. Kelsey said, was as large as his arm. The pipe cannot be put into commission for two or three weeks, in the city engineer's opinion.

or three weeks, in the city engineer's opinion.

Mr. Ferry's notice of a motion to reconsider renders the resolution inoperative until next Monday. In the meantime, the board of public works will meet Friday, and it is understood that Mayor Bransford will get after it with a sharp stick. The resolution follows:

"Whereas, For about two weeks an attempt has been made. Ill the wooden stave pipe line between the intercepting sewer and the gravity sewer with water so as to test its usefulness, and has utterly failed; therefore, be it

"Chicago, Nov. 16, 1908."

This is to certify that I alone am responsible for the irregularities that have occurred in my office, and that no one in my employ, or that ever was in my employ, has guilty knowledge of the irregularities that have occurred at any time. any time, "PETER VAN VLISSINGEN."

"PETER VAN VLISSINGEN."

"I want my punishment to come as quickly as possible," said Van Vlissingen. "It will interpose no technicality against the indictment, arraignment or sentence. Let the matter be attended to as quickly as possible."

Under guard, Van Vlissingen was then led to Judge Windes' courtroom, in another part of the criminal court building. Judge Windes was busy with other cases at the time, and the prisoner, with the witness and attorneys, had to wait. The court, however, soon disposed of the cases, and Van Vlissingen was led to the bar. Bowing his head the prisoner frequently lifted his handkerchief to his eyes, and during the sentence, while the judge looked over the document, his sobs were audible.

Proof of Guilt at Hand.

Among the documents before the court were the Grossman notes. Lesens and Seipp, the holders of the notes, first testified. They were followed by John A. Vanderpool, a clerk in Van Vlissingen's office, who testified to having no previous knowledge of any irregularity in the office.

Van Vlissingen was then called. His testimony, in part, follows:

"How long have you been in business in Chicago?"

"About twenty years."

He was shown the Grossman notes and said the signatures, including those

and said the signatures, including those of the recorder, and the notary public, and the number in deed, were all

and the number in deed, were all forgeries.

"In what manner was the forgery committed by you?"

"I did it by tracing."

"Just explain to the court how you traced the document."

FIRE CHIEF GLORE ON FIREMEN'S FUND

He Writes to City Council Concerning Money Held by Vail.

Fire Chief W. H. Glore, at Monday night's session of the city council, reopened the subject of the firemen's benefit fund with a recommendation that the matter be referred to the fire and municipal laws committees, asso-ciated with the city attorney, for in-vestigation. If, after investigation, this fund is found to be a bona fide asset of the firemen's association, Chief Glore recommends that steps be taken to recover it from the custodian, Ex-Chief Charles T. Vail, who, contrary to precedent, was continued as custo-dian of the fund when he quit the de-

dian of the fund when he quit the department a few months ago.

One of Chief Glore's reasons for wishing the matter investigated, he said. Monday night, is that as the fund was never turned over to him, as was the custom with succeeding chiefs, he wishes the record made clear on that point, so that he will not be involved in any liability for the fund. The matter was referred, as Chief Glore suggested, to the fire and municipal laws committee and the city attorney. Chief Glore's communication is as folhief Glore's communication is as follows:

Balt Lake City, Nov. 16, 1908. To the Honorable President and City

Cash on hand Total \$2699.87

I find no report in office for year 1995 on this fund. The report for the year 1996, made by Charles T. Vall, reports the asset as follows: "The fund, which has been mentioned in previous reports as amounting to \$4116.39 from 1995, \$3305.80

I desire to say that this asset has never come into my hands, and I wish it to be made a matter of record. Would suggest that this subject asset of fire department, known as firemen's fund, be referred to the committee on fire department and law, in conjunction with the city attorney, to take such steps as may be necessary, and if, after examination, this fund is found to be a bona fide asset, then proceed to recover the same from the former custodian or his bendsmen. The report for the year 1967 I have not seen I understand it is in the hands of the printer. Respectfully submitted.

Chief of Fire Department.

The fund has been lost sight for

Chief of Fire Department.

The fund has been lost sight for some time. Soon after Vail left the department, the firemen demanded an accounting, but alleged that Vail was evasive, claiming that he could not give an accounting on account of outstanding credits of the fund. Afterwards Vail said the fund was all right and offered to give bond or make an accounting, but neither offer has matured, the firemen say.

UPWARD START

After Changing from Coffee to Postum.

Many a talented person is kept back because of the interference of coffee with the nourishment of the body. This is especially so with those whose nerves are very sensitive, as is often the case with talented persons. There simple, easy way to get rid of coffee evils and a Tenn. lady's experience along these lines is worth considering. She says:
"Almost from the beginning of the

use of coffee it hurt my stomach. By the time I was fifteen I was almost a the time I was fifteen I was almost a nervous wreek, nerves all unstrung, no strength to endure the most trivial thing, either work or fun.

"Thete was searcely anything I could eat that would agree with me. The little I did eat seemed to give me more trouble than it was worth. I finally quit coffee and drank hot water, but there was so little food I could digest, I was literally starving; was so weak I could not sit up long at a time.

literally starving; was so weak I could not sit up long at a time.

'It was then a friend brought me a hot cup of Postum. I drank part of it and after an hour I felt as though I had had something to eat—felt strengthened. That was about five years ago and, after continuing Postum in place of coffee and gradually getting stronger, today I can eat and digest anything I want, walk as much as I want. My nerves are steady.

'I believe the first thing that did me any good and gave me an upward start, was Postum, and I use it altogether now instead of coffee.' 'There's a Reason.'
